

1. Title of the Practice

“This Is How We Developed”

2. Objectives of the Practice

The major aim and objective of this program was to feast of knowledge and experience sharing but also a kind of get together of ex-students and present students. They all shared their journey in achieving the aim and dream they had set once upon a time. This sharing shall boost the confidence level of our students

3. The Context

What were the contextual features or challenging issues that needed to be addressed in designing and implementing this practice? (in about 30 words)

In this online lecture series, the girls who received education from our College and then later on pursued higher education are going to share their experiences would definitely help our graduating students. Due to the Covid -19 and it's variants, it is difficult to arrange this type of lectures in the offline mode.

4. The Practice

The declining proportion of female students pursuing higher education in India in the 21st century is a major concern for the nation. Women possess natural qualities such as patience, creativity, and innovation, and their education is crucial for the future of the country and the world. Unfortunately, many women face obstacles in obtaining higher education after completing primary and secondary education. We are proud of our efforts and the success of our graduates, who can serve as role models for younger students by sharing their experiences of both failure and success.

5. Evidence of Success

Provide evidence of success such as performance against targets and benchmarks, review/results. What do these results indicate? Describe in about 40 words.

Three Days virtual Lecture Series program was organized in online mode during the 28th, 29th & 30th January 2022. Six different resource persons were invited for this lecture series. The program was organized by Department of Physics & All Science Departments of late Laxmibai

Deshmukh Mahila Mahavidyalaya,parli-V. This program is more than just a platform for sharing knowledge and experiences; it also serves as a reunion between former and current students. Everyone will have the opportunity to share their personal journeys and how they achieved the goals they once set for themselves. This sharing of experiences is sure to boost the confidence of our current students. The session also provides an opportunity for our students to interact with the invited guests. The guests scrutinized the inquiries made by the students about their individual aspirations and provided them with suitable direction and advice. After the conclusion of the three-day lecture series, we created a questionnaire that was given to the students. The questionnaire consisted of various questions that focused on the quality of the programs and solicited suggestions for improvement. In total, we received 93 responses to the questionnaire.

6. Problems Encountered and Resources Required

Organizing an online session can present several challenges that may include: Technical difficulties, Communication barriers, Time management, Engagement. During this program technical difficulties like internet connectivity, software glitches were identified and corrected in stipulated time period. It is important to have a dedicated facilitator or moderator to manage the session and ensure its smooth running. During this program we observed that ,in future to organize such programs technical support to help troubleshoot any issues that may arise during the session needs to addressed and engaging and informative content that is tailored to the audience's needs and interests.

7. Notes (Optional)
