Department of Computer Science
Certificate Course on Basics of Microsoft Office
Year 2022-23
Certificate course evaluation report

Course Details

- **Course Title:** Basics of Microsoft Office
 - **Institution/Provider:** Department of computer science
 - **Duration:** 16/07/2022 to 30/07/2022
 - **Mode of Delivery:** Offline
 - **Instructor(s):** Manoj Waghmare, Dr.G.E.Kulkarni
-

Evaluation Summary

Participant Demographics

- **Number of Participants:** 25
- **Participant Background:** students.

Evaluation Methodology

- **Evaluation Period:** 16/07/2022 to 30/07/2022
 - **Tools Used:** MCQ Based Exam was Conducted
-

The examination on the basics of MS Office was structured to include a total of 30 multiple-choice questions, each carrying one mark. The exam duration was set at 20 minutes, ensuring a concise yet comprehensive assessment of students' knowledge and skills in this essential software suite. This MCQ-based exam was specifically designed to evaluate the proficiency of students in various components of MS Office, including MS Word, MS Excel, MS PowerPoint. The overall performance in the Basics of MS Office exam was satisfactory, there is a clear need for targeted interventions to support students struggling with MS Outlook and MS PowerPoint. Through dedicated revision sessions and practical workshops, students can enhance their understanding and proficiency, leading to improved outcomes in future assessments and practical applications.

Course Name: Basics of MS-Office

<p>1. Microsoft word is ___ software.</p> <p>(A) Application (B) Compiler</p> <p>(C) System (D) Programming</p>	<p>16 The intersection of a column and a row in a worksheet is called ___</p> <p>A. Column B. Address</p> <p>C. Value D. Cell</p>
<p>2. Which is not in MS Word?</p> <p>(A) Italic (B) Magic tool</p> <p>(C) Font (D) Bold</p>	<p>17 The Greater Than sign (>) exemplifies a/an ___ operator.</p> <p>A. Arithmetic</p> <p>B. Conditional</p> <p>C. Logical</p> <p>D. Greater</p>
<p>3. ___ cannot be used to work in MS Office.</p> <p>(A) Joystick (B) Scanner</p> <p>(C) Light Pen (D) Mouse</p>	<p>18 . ___ type of chart is good for a single series of data.</p> <p>A. Column chart</p> <p>B. Cone chart</p> <p>C. Line chart</p> <p>D. Pie chart</p>
<p>4. Which is not an edition of MS Word?</p> <p>(A) MS Word 2003 (B) MS Word 2007</p> <p>(C) MS Word 2010 (D) MS Word 1020</p>	<p>19 What do Excel formulas start with?</p> <p>A) B) f</p> <p>C) = D).--</p>
<p>5. The ___ works with the standard Copy and Paste commands.</p> <p>(A) View tab (B) Paragraph dialog box</p> <p>(C) Office Clipboard (D) All of these</p>	<p>20 ___ is not a function in Excel.</p> <p>A. SUM</p> <p>B. MIN</p> <p>C. SUBTRACT</p> <p>D. MAX</p>

<p>6. What is the blank space outside the printing area on a page?</p> <p>(A) Clipart (B) Margins</p> <p>(C) Header (D) Footer</p>	<p>21 What is a Microsoft PowerPoint?</p> <p>A. Spreadsheet Program</p> <p>B. Presentation Program</p> <p>C. Database Program</p> <p>D. All of the above</p>
<p>7. Which of the following is an example of page orientation?</p> <p>(A) Landscape (B) Subscript</p> <p>(C) Superscript (D) A4</p>	<p>22 Which of the following is the file extension of the PowerPoint application?</p> <p>A. .ppt</p> <p>B. .jpg</p> <p>C. .html</p> <p>D. .docs</p>
<p>8. Formatting is performed on</p> <p>(A) Text (B) Table</p> <p>(C) Menu (D) Both (a) and (b)</p>	<p>23 Which of the following is called as page to create a presentation in PowerPoint?</p> <p>A. Sheet</p> <p>B. Slide</p> <p>C. Paper</p> <p>D. None of the above</p>
<p>9. Which of the following software is used for making a resume?</p> <p>(A) MS Excel (B) MS Word</p> <p>(C) Dev C (D) Java</p>	<p>24 In a presentation of PowerPoint, the special effects used to introduce slides are known as -</p> <p>A. Custom Animation</p> <p>B. Transitions</p> <p>C. Annotations</p> <p>D. None of the above</p>
<p>10. Press ____ to open the help window in the MS Word document.</p> <p>(A) F1 (B) F2</p> <p>(C) F9 (D) F11</p>	<p>25 Which of the following shortcut key is used to start the slideshow?</p> <p>A. Using F5 key B. Using F3 key</p> <p>B. C. Using F1 key D. Using F6 key</p>

<p>11 ____ is not a valid data type in MS-Excel.</p> <p>A. Number B. Character C. Label D. Date/ Time</p>	<p>26 Which of the following is the shortcut key to insert a new slide between the current presentation?</p> <p>A. Ctrl + N B. Ctrl + K C. Ctrl + M D. Ctrl + O</p>
<p>12 What is MS Excel?</p> <p>A. Spreadsheet B. Database Management C. Presentation D. Workbook</p>	<p>27. Which of the following is the shortcut key to open the existing presentation in the powerpoint?</p> <p>A. Ctrl + M B. Ctrl + N C. Ctrl + O D. Ctrl + K</p>
<p>13. What is the row limit of MS Excel 2019?</p> <p>A. 4,81,0576 B. 1,048,576 C. 1,57,648 D. 1,63, 84</p>	<p>28 Which of the following shortcut key is used to stop the slide show?</p> <p>A. Esc key B. Ctrl + O C. Ctrl + N D. Ctrl + K</p>
<p>14 In Microsoft Excel spreadsheets, rows are designated as ____.</p> <p>A. 1, 2, 3, B. A, B, C, C. A1, B1, C1, D. I, II, III,</p>	<p>29 . In PowerPoint, is it allowed to make a PDF of the powerpoint presentation?</p> <p>A. True B. False C. Can't say D. May be</p>
<p>15 ____ logical function indicates TRUE only if all arguments are assessed as TRUE, and FALSE otherwise.</p> <p>A) OR B) AND C) IF D) ANDIF</p>	<p>30. Which of the following is the shortcut key for checking the spelling in PowerPoint?</p> <p>A. F5 B. F7 C. F6 D. F3</p>

Certificate Course in Spectroscopic Methods in Chemical Analysis

Welcome to Late Laxmibai Deshmukh Mahila Mahavidyalaya, where academic excellence meets a passion for Learning. Our dynamic Chemistry department is committed to fostering a deep understanding.

Why this Course?

To provide the Basic Knowledge of Spectroscopic techniques in Chemistry. To provide the Knowledge of Principle & Working of UV, IR, NMR & Mass Spectroscopy. To provide the knowledge of spectral ranges and characterization.

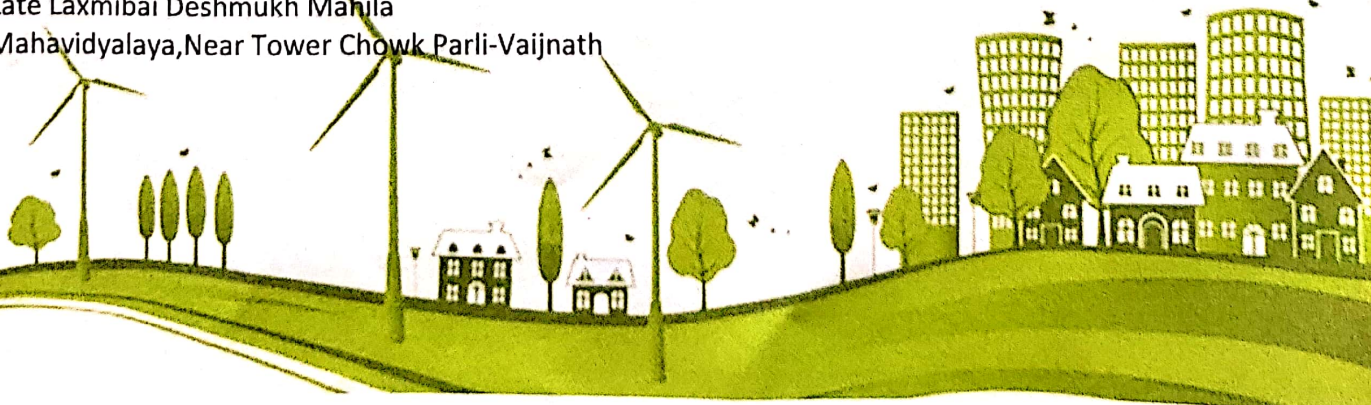

Key Features: Experienced Faculty - Learn from passionate and knowledgeable instructors. Hands-On Learning: Engage in practical sessions and fieldwork. Industry-Relevant Content: Gain insights into current challenges and solutions.

Date of Enrollment: 08th July to 15 July, 2022
Course Starts: 16 July to 30 July, 2022
Time: 3:00pm to 5:00pm

Academic Year 2022-23

Certificate Course on

**Introduction to Spectroscopic Methods in
Chemical Analysis**

Course Details

A) Aims and Objectives:

1. To provide the basic Knowledge of Spectroscopic techniques in Chemistry.
2. To provide the Knowledge of principle and working of UV, IR, NMR and Mass.
3. To provide the knowledge of spectral ranges and characterization.
4. To elucidate the structure of organic compounds on the basis of spectrum.

B) Course Application Period : 8/7/2022 to 15/7/2022

C) Course Duration : 16/07/2022 to 30/07/2022

D) Date of Admission: Admission is open at the time of college admission process.

E) Intake capacity: 25-30 students of B.Sc.

F) Admission Criteria: Any student from B.Sc can take admission

G) Fees: No Fees

H) Medium: English

H) Syllabus:

- a) Design the structures of various molecules by ChemDraw software.
- b) Basic knowledge of UV/Visible spectroscopy.
- c) Basics of IR Spectroscopy (Imp bands)
- d) ¹H NMR spectroscopy (Basic)
- e) ¹³C NMR spectroscopy (Basic)
- f) Mass spectroscopy (Basic)
- g) Characterization
- h) Structure elucidation
- i) Structure elucidation and justification

Course Evaluation:-

The evaluation of the course was based on the following criteria.

1) Course content and Delivery:

- * The topics were comprehensive and covered all aspects of the subject matter.
- * Lectures were delivered effectively, with a focus on interactive learning.

2) Examination:

- * The 25 marks exam was well structured and effectively tested the students knowledge.
- * The exam was conducted in a fair and transparent manner.

3) Certificate:

- * Certificate were awarded to students who passed the examination providing formal recognition of their efforts and knowledge gained.

Department of Chemistry

Academic Year 2022-23

Certificate Course on

**Introduction to Spectroscopic Methods in
Chemical Analysis**

Final Examination

Marks 25

- A) Answer the following, each Question carry 1 marks 10**
- 1) Explain $\sigma \rightarrow \sigma^*$ Transition
 - 2) Define chromospheres.
 - 3) What are types of stretching vibration?
 - 4) What is the formula for chemical shift calculation in $^1\text{H NMR}$ spectroscopy?
 - 5) What is spin-spin coupling?
 - 6) What is base peak?
 - 7) What is formula to calculate number of vibration for linear & non-linear molecule?
 - 8) The UV spectroscopy consists of broad peaks not sharp peaks. Justify?
 - 9) What is reference Standard used in $^1\text{H NMR}$ spectroscopy?
 - 10) What is coupling constant?
- B) Explain shielding and Deshielding effects ? 05**
- C) Explain Types of fundamental modes of vibrations. 05**
- D) . An organic compound $\text{C}_5\text{H}_{10}\text{O}$ exhibits the following spectral Characteristics 05**
- i) UV (max) = 280nm
 - ii) IR (ν_{max}) = 1715 cm^{-2}
 - iii) $^1\text{H NMR}$: 0.90(3H,t)
1.60(2H,m)
2.20 (3H,S)
2.40 (2H,t).
 - iv) mass (m/z): 86,71, 58, 43 (100%)

Deduce the structure of the compound & explain the formation of different ions mass spectrum.

Department of Zoology

Certificate Course in Human Ecology

Brochure

Welcome to Late Laxmibai Deshmukh Mahila Mahavidyalaya, where academic excellence meets a passion for conservation. Our dynamic Zoology department is committed to fostering a deep understanding of the natural world and its intricate ecosystems.

Why this Course?

Explore the Basics of Human Ecology, delve into interactions of Human with its environment Climate change and Species Vulnerability, learn about Conservation Strategies in a Changing Climate. Explore the World of Zoology Certificate Course on Human Ecology.

Key Features: Experienced Faculty - Learn from passionate and knowledgeable instructors. Hands-On Learning: Engage in practical sessions and fieldwork. Industry-Relevant Content: Gain insights into current challenges and solutions.

Date of Enrollment: 15th June to 30 June, 2022

Course Starts: 1st July to 30 July, 2022

Time: 4:00pm to 5:20pm

Contact:

Dr. V.D. Gulbhile

Department of Zoology

Certificate Course on Human Ecology

Syllabus

Unit 1: Introduction to Human Ecology

- Overview of human ecology as a multidisciplinary field.
- Basic concepts and principles of human-environment interactions.
- Historical perspectives on human ecology.

Unit 2: Human Population Dynamics

- Patterns of human population growth and distribution.
- Demographic transitions and their environmental implications.
- Population-environment interactions and carrying capacity.

Unit 3: Resource Utilization and Management

- Overview of natural resources and their significance to human societies.
- Human impacts on land, water, and air resources.
- Strategies for sustainable resource management.

Unit 4: Human Impact on Ecosystems

- Ecological footprint analysis and its implications.
- Deforestation, habitat destruction, and biodiversity loss.
- Case studies of ecosystem degradation and restoration efforts.

Unit 5: Environmental Pollution and Health

- Types and sources of environmental pollution.
- Health effects of pollution on human populations.
- Mitigation strategies and environmental policy interventions.

Unit 6: Climate Change and Adaptation

- Causes and impacts of climate change on human societies and ecosystems.
- Adaptation and resilience strategies at individual, community, and global levels.
- Mitigation efforts and international agreements.

Recommended Textbook:

- "Human Ecology: Concepts and Applications" by Daniel G. Bates and Susan H. Lees

Additional Resources:

- Journal articles, documentaries, and online resources related to human ecology and environmental sustainability.

Department of Zoology

Certificate Course on Human Ecology
Academic Year 2022-23

Aims & Objectives for Course: Human Ecology

Aims:

1. To provide students with a comprehensive understanding of the principles and concepts of human ecology.
2. To explore the dynamic interactions between human populations and their environment across various spatial and temporal scales.
3. To foster an appreciation for the complexity of human-environment relationships and the importance of sustainability.
4. To empower students with the knowledge and skills necessary to address contemporary environmental challenges from a holistic perspective.

Objectives:

1. To introduce students to the interdisciplinary nature of human ecology, drawing from fields such as anthropology, geography, sociology, and environmental science.
2. To examine the historical development of human societies and their ecological footprints, with a focus on the impacts of human activities on ecosystems and biodiversity.
3. To analyze case studies and real-world examples of human-environment interactions, including issues related to resource exploitation, pollution, urbanization, and climate change.
4. To explore the role of culture, values, and institutions in shaping human behaviors and attitudes towards the environment, and to evaluate strategies for promoting sustainable lifestyles and consumption patterns.
5. To encourage critical thinking and problem-solving skills through discussions, group activities, and research projects focused on contemporary environmental issues and solutions.
6. To foster an ethic of environmental stewardship and social responsibility among students, emphasizing the interconnectedness of human well-being and ecosystem health.

Department of Zoology
Academic Year:2022

Course: Human Ecology

Assessment Report

Assessment of Certificate Course: Human Ecology

Course Duration: July 1, 2022 - July 30, 2022

Organizing Institution: Department of Zoology, Late Laxmibai Deshmukh Mahila College

Sponsor: Late Laxmibai Deshmukh Mahila College

Objective: The primary objective of this course was to educate students on the critical aspects of human ecology, focusing on the interactions between humans and their environment, and to promote understanding of sustainable practices and conservation efforts.

Course Evaluation: The evaluation of the course was based on the following criteria:

1. **Course Content and Delivery:**
 - The course topics were comprehensive and covered essential aspects of human ecology.
 - Lectures were delivered effectively, promoting interactive learning and engagement.
2. **Participant Engagement:**
 - High levels of student participation and interest were noted.
 - Active discussions and interactive sessions enhanced the learning experience.
3. **Examination:**
 - The 30-question multiple-choice exam was well-designed to evaluate the students' knowledge.
 - The examination process was conducted in a fair and transparent manner.
4. **Certification:**
 - Certificates were awarded to students who passed the examination, providing formal recognition of their learning and achievement.

Strengths:

- **Expert Leadership:** The course was led by Prof. Dr. V.D. Gulbhile and supported by Assistant Prof. Sharad Rode, whose expertise and leadership greatly contributed to its success.
- **Effective Assessment:** The multiple-choice examination was an appropriate tool for assessing students' understanding.
- **Conclusion:** The certificate course on Human Ecology was highly successful, meeting its objective of educating students on the intricate relationships between humans and their environment. The course not only raised awareness but also equipped participants with the knowledge needed to engage in sustainable practices and conservation efforts. Future iterations of the course could benefit from more hands-on experiences and the inclusion of expert guest lectures to further enrich the educational experience.

Question Paper based on
(Each Question carry 1 Mark)

Human Ecology

Marks 30

1. What is Human Ecology?
 - A) Study of plants and animals
 - B) Study of human-environment interactions
 - C) Study of climate change
 - D) Study of human diseases
2. Which of the following is a basic concept in Human Ecology?
 - A) Photosynthesis
 - B) Human-environment interactions
 - C) Quantum mechanics
 - D) Cell biology
3. Human Ecology is considered a:
 - A) Single-discipline field
 - B) Multidisciplinary field
 - C) Sub-discipline of psychology
 - D) Branch of chemistry
4. Historical perspectives in Human Ecology include the study of:
 - A) Modern technology
 - B) Ancient human societies and their environments
 - C) Future predictions
 - D) Space exploration
5. Which principle is central to Human Ecology?
 - A) Human dominance over nature
 - B) Balance between human needs and environmental sustainability
 - C) Unlimited resource exploitation
 - D) Industrial growth
6. What does demographic transition refer to?
 - A) Change in population due to migration
 - B) Transition from high birth and death rates to low birth and death rates
 - C) Changes in animal population
 - D) Transition from rural to urban living
7. Which factor is crucial in determining the carrying capacity of an environment?
 - A) Industrial output
 - B) Resource availability
 - C) Technological advancements
 - D) Political stability
8. Which pattern describes human population growth historically?
 - A) Linear growth
 - B) Decline
 - C) Exponential growth
 - D) Stable growth

9. Population-environment interactions can lead to:
- A) Increased biodiversity
 - B) Decreased resource consumption
 - C) Environmental degradation
 - D) Balanced ecosystems
10. Which stage in the demographic transition model is characterized by high birth and death rates?
- A) Pre-industrial
 - B) Transitional
 - C) Industrial
 - D) Post-industrial
11. Natural resources are significant because they:
- A) Are unlimited
 - B) Support human life and economic activities
 - C) Never get depleted
 - D) Can be ignored
12. Human impact on land resources includes:
- A) Ocean pollution
 - B) Deforestation
 - C) Air pollution
 - D) Glacier melting
13. A sustainable resource management strategy is:
- A) Overfishing
 - B) Clear-cutting forests
 - C) Recycling and reusing materials
 - D) Intensive agriculture
14. Water resources are impacted by:
- A) Deforestation
 - B) Overfishing
 - C) Industrial pollution
 - D) Urbanization
15. Sustainable management of air resources involves:
- A) Increasing industrial emissions
 - B) Promoting green energy solutions
 - C) Clear-cutting forests
 - D) Overusing fossil fuels
16. An ecological footprint measures:
- A) Carbon dioxide levels
 - B) Human demand on Earth's ecosystems
 - C) Wildlife population
 - D) Water quality
17. Deforestation leads to:
- A) Increased biodiversity
 - B) Habitat destruction
 - C) Soil enrichment
 - D) Air purification
18. A case study in ecosystem restoration might involve:
- A) Building factories
 - B) Replanting forests
 - C) Increasing urban sprawl
 - D) Draining wetlands
19. Biodiversity loss is often a result of:
- A) Habitat conservation
 - B) Sustainable agriculture
 - C) Habitat destruction
 - D) Pollution control

20. Which of the following can help reduce the ecological footprint?
- A) Increasing resource consumption
 - B) Reducing waste production
 - C) Expanding urban areas
 - D) Encouraging deforestation
21. Major sources of air pollution include:
- A) Agricultural practices
 - B) Industrial emissions
 - C) Wildlife activities
 - D) Forests
22. Which type of pollution can affect water bodies?
- A) Noise pollution
 - B) Chemical spills
 - C) Light pollution
 - D) Plastic waste
23. Health effects of pollution include:
- A) Increased energy levels
 - B) Respiratory problems
 - C) Improved mental health
 - D) Enhanced immune response
24. A mitigation strategy for air pollution is:
- A) Burning more fossil fuels
 - B) Reducing emissions from vehicles
 - C) Increasing deforestation
 - D) Building more factories
25. Environmental policy interventions aim to:
- A) Promote industrial growth
 - B) Reduce environmental pollution
 - C) Ignore pollution problems
 - D) Increase resource exploitation
26. A major cause of climate change is:
- A) Decreased industrial activity
 - B) Greenhouse gas emissions
 - C) Planting more trees
 - D) Water conservation
27. Impact of climate change on human societies includes:
- A) Stable weather patterns
 - B) Increased natural disasters
 - C) Decreased sea levels
 - D) Enhanced crop yields
28. An adaptation strategy for climate change is:
- A) Ignoring the issue
 - B) Building flood defenses
 - C) Increasing fossil fuel use
 - D) Clear-cutting forests
29. International agreements on climate change aim to:
- A) Promote global warming
 - B) Reduce greenhouse gas emissions
 - C) Increase industrial emissions
 - D) Ignore climate issues
30. Resilience strategies at the community level might include:
- A) Developing emergency response plans
 - B) Increasing carbon footprint
 - C) Reducing renewable energy use
 - D) Promoting deforestation

Answers: -

1. B) Study of human-environment interactions
 2. B) Human-environment interactions
 3. B) Multidisciplinary field
 4. B) Ancient human societies and their environments
 5. B) Balance between human needs and environmental sustainability
 6. B) Transition from high birth and death rates to low birth and death rates
 7. B) Resource availability
 8. C) Exponential growth
 9. C) Environmental degradation
 10. A) Pre-industrial
 11. B) Support human life and economic activities
 12. B) Deforestation
 13. C) Recycling and reusing materials
 14. C) Industrial pollution
 15. B) Promoting green energy solutions
 16. B) Human demand on Earth's ecosystems
 17. B) Habitat destruction
 18. B) Replanting forests
 19. C) Habitat destruction
 20. B) Reducing waste production
 21. B) Industrial emissions
 22. D) Plastic waste
 23. B) Respiratory problems
 24. B) Reducing emissions from vehicles
 25. B) Reduce environmental pollution
 26. B) Greenhouse gas emissions
 27. B) Increased natural disasters
 28. B) Building flood defences
 29. B) Reduce greenhouse gas emissions
 30. A) Developing emergency response plans

Arts, Commerce & Science

Department of Zoology
Academic Year:2022

Course: Human Ecology

Summary Report

Department of Zoology Certificate Course: Human Ecology

Course Duration: July 1, 2022 - July 30, 2022

Organizing Institution: Department of Zoology, Late Laxmibai Deshmukh Mahila College

Sponsor: Late Laxmibai Deshmukh Mahila College

Course Overview: The Department of Zoology successfully conducted a certificate course on Human Ecology from July 1, 2022, to July 30, 2022. The course aimed to provide an in-depth understanding of the relationship between humans and their environment, focusing on the interactions that shape ecological systems and influence human health and well-being.

Course Content: The curriculum covered a wide range of topics, including:

- Introduction to Human Ecology
- Human Impact on the Environment
- Population Dynamics and Ecosystem Services
- Sustainable Development and Conservation
- Human Health and Ecological Interactions

Examination and Certification: At the end of the course, a 30-question multiple-choice examination was administered to assess participants' comprehension of the course material. Students who successfully passed the exam received certificates, acknowledging their participation, and understanding of Human Ecology.

Department Leadership: The course was organized under the expert guidance of Prof. Dr. V.D. Gulbhile, Head of the Department of Zoology, with support from Assistant Prof. Sharad Rode.

Outcome: The course was well-received, with participants gaining valuable insights into human ecological interactions and their implications. The examination and subsequent certification ensured that the knowledge acquired during the course was effectively understood and retained by the students.

Department of Zoology

Certificate Course in Climate Change Impact on Endangered Species

Welcome to Late Laxmibai Deshmukh Mahila Mahavidyalaya, where academic excellence meets a passion for conservation. Our dynamic Zoology department is committed to fostering a deep understanding of the natural world and its intricate ecosystems.

Why this Course?

Explore the Basics of Climate Change and Ecology, delve into Endangered Species Vulnerability, and learn about Conservation Strategies in a Changing Climate. Explore the World of Zoology Certificate Course on Climate Change Impact on Endangered Species.

Key Features: Experienced Faculty - Learn from passionate and knowledgeable instructors. Hands-On Learning: Engage in practical sessions and fieldwork. Industry-Relevant Content: Gain insights into current challenges and solutions.

Date of Enrollment: from 15th December to 30 Dec. 2022

Course Starts: 2nd Jan to 31 Jan. 2023

Time: Time 4:00pm to 5:20pm

Contact:

Dr. V.D. Gulbhile

MAHAVIDYALAYA**
Arts, Commerce & Science

Department of Zoology

Academic Year 2022-23

**Certificate Course on
Climate Change Impact on Endangered Species**
Syllabus

Week 1: Basics of Climate Change and Ecology

1. Climate Change Fundamentals:

- Introduction to the greenhouse effect
- Causes of climate change: natural and anthropogenic factors
- Global temperature trends and climate models

2. Introduction to Ecology and Ecosystems:

- Ecosystem structure and function
- Biotic and abiotic factors influencing ecosystems.
- Ecological relationships and interdependence

Key Readings:

"Ecology: Concepts and Applications" by Manuel C. Molles Jr.

Week 2: Endangered Species Vulnerability

1. Understanding Vulnerability and Resilience:

- Factors contributing to species vulnerability.
- Resilience mechanisms in the face of environmental stress
- Impacts of climate change on population dynamics

2. Case Studies on Climate Change Impact:

- Analyzing specific examples of endangered species affected by climate change.
- Examining population trends and adaptations

Key Readings:

- "Climate Change and Biodiversity" by Thomas E. Lovejoy
- Case studies from the International Union for Conservation of Nature (IUCN)

Week 3: Conservation Strategies in a Changing Climate

1. Role of Zoologists in Conservation:

- Zoologists as advocates for endangered species
- Integrating climate change considerations into conservation planning
- Collaborative efforts and international initiatives

2. Conservation Genetics and Adaptation:

- Genetic diversity and its importance
- Adapting conservation strategies to changing environmental conditions
- The role of genetic information in conservation decision-making

Key Readings:

- "Conservation Genetics in the Age of Genomics" by George Amato and Rob DeSalle
- "Climate Change and Conservation" by Chris D. Thomas

Week 4: Monitoring Techniques and Future Directions

1. Field Methods for Climate Impact Assessment:

- Techniques for assessing climate change impacts on species.
- Population monitoring and habitat assessment.
- Fieldwork challenges and opportunities

2. Emerging Technologies and Future Challenges:

- Remote sensing applications in climate impact assessment
- Technological advancements in conservation biology
- Anticipating and addressing future challenges in endangered species conservation

Key Readings:

- "Remote Sensing for Ecology and Conservation" by Ned Horning and Eleanor J. Sterling
- "Conservation in the Anthropocene" by David W. Macdonald and Katherine J. Willis
- Assessment:

- Final Test & Project Presentation: 80%

- Collaborative project on a chosen endangered species, evaluating its vulnerability and proposing conservation strategies.

- Class Participation: 20%

- Active engagement in discussions, group activities, and presentations

- Textbook: "Climate Change Biology" by Lee Hannah and provided research papers.

Department of Zoology

Certificate Course on Climate Change Impact on Endangered Species
Academic Year 2022-23

Aims & Objectives for Course: Climate Change Impact on Endangered Species

Aims:

1. To provide a comprehensive understanding of the impact of climate change on endangered species.
2. To raise awareness about the interconnectedness of climate change and biodiversity conservation.
3. To foster a sense of responsibility and urgency in addressing the challenges faced by endangered species due to climate change.

Objectives:

1. To educate students about the scientific principles underlying climate change and its effects on vulnerable species.
2. To explore case studies and real-world examples illustrating the impact of climate change on endangered species across different ecosystems.
3. To analyze the current conservation strategies and assess their effectiveness in mitigating the impact of climate change on endangered species.
4. To encourage critical thinking and problem-solving skills in developing sustainable solutions for the protection of endangered species in the face of climate change.
5. To facilitate discussions and research on the ethical, social, and economic implications of climate change on endangered species and their habitats.

These aims and objectives aim to provide students with a holistic understanding of the challenges posed by climate change to endangered species and empower them to contribute to the conservation efforts effectively.

Department of Zoology

Academic Year:2022-23

Course: Climate Change Impact on Endangered Species

Assessment Report

Assessment of Certificate Course: Climate Change Impact on Endangered Species

Course Duration: January 2, 2023 - January 31, 2023

Organizing Institution: Department of Zoology, Late Laxmibai Deshmukh Mahila College

Sponsor: Late Laxmibai Deshmukh Mahila College

Objective: The primary objective of this course was to provide an in-depth understanding of how climate change affects endangered species and to equip students with the knowledge needed to contribute to conservation efforts.

Course Evaluation: The evaluation of the course was based on the following criteria.

1. **Course Content and Delivery:**
 - The topics were comprehensive and covered all aspects of the subject matter.
 - Lectures were delivered effectively, with a focus on interactive learning.
2. **Examination:**
 - The 30-question multiple-choice exam was well-structured and effectively tested the students' knowledge.
 - The exam was conducted in a fair and transparent manner.
3. **Certification:**
 - Certificates were awarded to students who passed the examination, providing formal recognition of their efforts and knowledge gained.

Strengths: Expert Leadership: The course was guided by Dr. V.D. Gulbhile, along with Mr. Sharad Rode whose expertise and leadership significantly contributed to its success.

Comprehensive Coverage: The course content was thorough, addressing all critical aspects of climate change and its impact on endangered species.

- **Effective Assessment:** The multiple-choice examination was an appropriate tool for evaluating the students' understanding.
-
- **Conclusion:** The certificate course on the impact of climate change on endangered species was a resounding success, achieving its objective of educating students on this crucial environmental issue. The course not only raised awareness but also equipped participants with the knowledge needed to contribute to conservation efforts. Future iterations of the course could benefit from the inclusion of more hands-on experiences and expert guest lectures to further enrich the educational experience.

Question Paper based on **Climate Change Impact on Endangered Species A Certificate Course.**

Total 30 Questions MCQS (each carry one mark)

Marks 30

1. The greenhouse effect is the natural warming of Earth caused by
 - a) Increased solar radiation
 - b) Trapping of heat by certain gases
 - c) Decreasing ozone layer
 - d) Volcanic eruptions.
2. Which of the following is NOT a major anthropogenic factor contributing to climate change?
 - a) Deforestation
 - b) Burning fossil fuels
 - c) Increased volcanic activity
 - d) Industrial processes.
3. Climate models are computer simulations used to predict:
 - a) Future climate trends
 - b) Specific weather events
 - c) Exact animal migrations
 - d) Sudden earthquakes.
4. The living organisms (plants, animals) in an ecosystem are called:
 - a) Abiotic factors
 - b) Biotic factors
 - c) Decomposers
 - d) Producers.
5. Temperature, sunlight, and water availability are examples of:
 - a) Biotic factors
 - b) Abiotic factors
 - c) Consumers
 - d) Populations.
6. A symbiotic relationship where one organism benefits and the other is neither harmed nor helped is called:
 - a) Parasitism
 - b) Commensalism
 - c) Mutualism
 - d) Predation
7. Habitat loss is a major factor contributing to species vulnerability because it:
 - a) Increases competition for resources
 - b) Reduces available living space
 - c) Creates new predators
 - d) All of the above

8. A population's ability to withstand environmental changes is called:
 - a) Extinction risk
 - b) Resilience
 - c) Habitat fragmentation
 - d) Population decline.
9. Climate change can impact population dynamics by:
 - a) Shifting food availability
 - b) Changing breeding patterns
 - c) Increasing disease outbreaks
 - d) All of the above
10. Zoologists can contribute to endangered species conservation by:
 - a) Advocating for protection
 - b) Studying unrelated animal species
 - c) Ignoring climate change impacts
 - d) Encouraging unsustainable practices.
11. Integrating climate change considerations into conservation planning involves:
 - a) Focusing solely on habitat preservation
 - b) Predicting future habitat suitability
 - c) Ignoring potential population shifts
 - d) Encouraging human development in key areas.
12. Genetic diversity is important for endangered species because it allows for:
 - a) Adaptation to changing environments
 - b) Increased competition within the population
 - c) Reduced breeding success
 - d) A faster extinction rate.
13. Population monitoring is a vital tool for assessing the impact of climate change on:
 - a) Weather patterns
 - b) Endangered species populations
 - c) Global economic trends
 - d) Volcanic activity.
14. Remote sensing technology can be used in conservation to:
 - a) Directly track individual animals
 - b) Monitor habitat changes over time
 - c) Capture high-quality wildlife photos
 - d) Predict specific animal behavior.
15. A future challenge in endangered species conservation due to climate change is:
 - a) Increased public awareness
 - b) Anticipating rapid environmental changes
 - c) Having too many conservation organizations
 - d) A lack of funding for basic research.
16. Which of the following is NOT a consequence of the greenhouse effect?
 - a) More frequent and intense heatwaves
 - b) Rising sea levels due to melting glaciers
 - c) Increased precipitation in all regions
 - d) Changes in agricultural crop yields.

17. The scientific consensus on human-caused climate change is based on:
- Political opinions
 - Anecdotal evidence
 - Multiple lines of scientific evidence
 - The media.
18. Decomposers are crucial in ecosystems because they:
- Compete with herbivores for resources
 - Break down dead organisms and return nutrients
 - Predate on top predators
 - Release harmful toxins into the environment.
19. An example of a mutualistic relationship in an ecosystem is:
- A lion hunting a zebra
 - A bee pollinating a flower while collecting nectar
 - A tapeworm living inside a human host
 - A mistletoe plant harming a tree.
20. Habitat fragmentation occurs when:
- The overall habitat area increases
 - Large habitat patches are broken into smaller ones
 - There is an abundance of food resources
 - Predators are completely removed.
21. Climate change can affect an endangered species' resilience by:
- Increasing their lifespan
 - Limiting their ability to adapt to changing conditions
 - Making them more competitive with other species
 - Reducing the risk of disease outbreaks.
22. An international initiative for species conservation is:
- National Park creation within a single country
 - The Convention on International Trade in Endangered Species (CITES)
 - Local community-led conservation efforts only
 - Focusing solely on captive breeding programs.
23. Conservation genetics can be used to identify:
- The best locations for tourist attractions near wildlife
 - Inbreeding problems within endangered populations
 - The most aggressive predators for removal
 - The ideal temperature for captive breeding facilities.
24. Fieldwork challenges in endangered species conservation can include:
- Easy access to all desired study locations
 - Difficulties finding and tracking rare species
 - Having too much data to analyse.
 - A lack of qualified researchers.

25. Emerging technologies in conservation biology may involve:
- a) Introducing genetically modified organisms
 - b) Using drones to monitor wildlife populations
 - c) Completely removing invasive species from ecosystems
 - d) Ignoring technological advancements.
26. An important aspect of future conservation efforts is:
- a) Focusing solely on charismatic megafauna
 - b) Encouraging public participation and support
 - c) Ignoring the economic costs of conservation
 - d) Predicting the exact future climate with certainty.
27. The Intergovernmental Panel on Climate Change (IPCC) is a body that:
- a) Sets environmental regulations for individual countries
 - b) Provides scientific assessments on climate change
 - c) Lobbies for specific political agendas
 - d) Funds individual conservation projects.
28. When comparing natural and human-caused climate change, the current rate of warming is considered:
- a) Similar to past natural fluctuations
 - b) Much faster than any previous recorded change
 - c) Impossible to determine with certainty
 - d) Beneficial for overall global productivity.
29. An example of an adaptation that can help a species cope with climate change is:
- a) Increased hunting behavior
 - b) Shifting breeding seasons to align with changing temperatures
 - c) Becoming more social with other species
 - d) A shorter lifespan for quicker reproduction.
30. Citizen science initiatives can contribute to conservation efforts by:
- a) Collecting data on species distribution and abundance
 - b) Only participating in fundraising activities
 - c) Lobbying for specific political policies
 - d) Disrupting ongoing scientific research projects.

Answers key

1. Trapping of heat by certain gases
2. Increased volcanic activity.
3. Future climate trends
4. Biotic factors
5. Abiotic factors
6. Commensalism
7. Reduces available living space.
8. Resilience.
9. *All of the above*
10. Advocating for protection
11. Predicting future habitat suitability
12. Adaptation to changing environments.
13. Endangered species populations
14. Monitor habitat changes over time.
15. Anticipating rapid environmental changes.
16. Increased precipitation in all regions.
17. Multiple lines of scientific evidence.
18. Break down dead organisms and return nutrients.
19. A bee pollinating a flower while collecting nectar.
20. Large habitat patches are broken into smaller ones.
21. Limiting their ability to adapt to changing conditions.
22. The Convention on International Trade in Endangered Species (CITES).
23. Inbreeding problems within endangered populations.
24. Difficulties finding and tracking rare species.
25. Using drones to monitor wildlife populations.
26. Encouraging public participation and support.
27. Provides scientific assessments on climate change.
28. Much faster than any previous recorded change.
29. Shifting breeding seasons to align with changing temperatures.
30. Collecting data on species distribution and abundance.

Department of Zoology

Academic Year:2022-23

Course: Climate Change Impact on Endangered Species

Summary Report

Department of Zoology Certificate Course: Climate Change Impact on Endangered Species

Course Duration: January 2, 2023 - January 31, 2023

Organizing Institution: Department of Zoology, Late Laxmibai Deshmukh Mahila College

Sponsor: Late Laxmibai Deshmukh Mahila College

Course Overview: The Department of Zoology successfully organized a comprehensive certificate course focusing on the impact of climate change on endangered species. The course aimed to educate participants on the critical issues surrounding climate change and its adverse effects on biodiversity, particularly endangered species.

Course Content: The curriculum covered various topics, including:

- Introduction to Climate Change
- Mechanisms of Climate Change
- Effects of Climate Change on Ecosystems
- Specific Impacts on Endangered Species
- Conservation Strategies and Mitigation Measures

Examination and Certification: At the conclusion of the course, a 30-question multiple-choice examination was conducted to assess the participants' understanding of the material. Students who successfully completed the exam were awarded certificates, recognizing their achievement and participation in the course.

Department Leadership: The course was organized under the esteemed leadership of Dr. V.D. Gulbhile, Head of the Department of Zoology & along with Mr. Sharad Rode.

Outcome: The course was well-received, with participants gaining valuable insights into the pressing issue of climate change and its impact on endangered species. The examination and certification process ensured that the knowledge imparted during the course was effectively retained and understood by the students.

Certificate Course in Solar Energy and its applications

To create awareness about non-conventional energy amongst the students and motivate them to use solar energy and applications in their daily lives. Students are aware of the subject of their regular syllabus. But in order to get the deeper knowledge, this course has been designed. It was practical oriented wherein the students will be able to handle multimeter, solar cell and also calculate short circuit current, open circuit voltage, and Knee point parameters of solar cell. They will be made aware about generation of solar units and know how to sell it to the state electricity board. They will study the use of solar appliances and saving of conventional energy.

Certificates were distributed to the students who have successfully passed the examination on the occasion of national energy day.

Application Period: 08/08/2022 to 16/08/2022

Course Period: 20/08/2022 to 09/10/2022 on weekends

Time: 03.30pm to 05.30pm

Academic year 2022-23

Certificate course in Solar Energy and it's applications

Syllabus

Unit 1 : Non-Conventional Energy Sources (10 hr)

Introduction, Conventional and non-conventional energy, solar energy, wind energy, geothermal energy, tidal energy, ocean thermal energy, biogas etc.

Unit II : Solar Energy (10 hr)

Usefulness of solar energy, harvesting importance and storage of solar energy, n type and p type semiconductor, solar cell, I-V Characteristics of solar cell, fill factor, solar cell efficiency.

Unit 3: Application of Solar cells (10hr)

Solar water heater, solar pump, solar cooker, solar distillation, solar lamp.

Academic year 2022-23

Certificate course in Solar Energy and it's applications

Objective, Summary Report and Outcome

Objective:

To make awareness of non-conventional energy amongst the students and motivate them to use solar energy and applications.

Summary Report :

Students were aware of the subject in their regular syllabus. But in order to get the deeper knowledge, this course was designed. It was practical oriented where in students were able to handle multimeter, solar cell and also calculate short circuit current, open circuit voltage, Knee point parameters of solar cell. They were made aware about generation of solar units and sell it to state electricity board. They could study the use of solar appliances and saving of conventional energy.

Certificates were distributed to the students who have successfully passed the examination on the occasion of national energy day.

Outcome:

Students were exited to use solar appliances and aware how to save conventional energy by using non conventional energy.

Notice

The students of B.Sc. are informed that , department of Physics is planning to conduct the 30 hours course in “**Solar energy and it's application**” during 20/08/2022 to 09/10/2022 on Saturday and sunday at 3.30 pm. To enroll for the course, collect the registration from Mr.G.N.Waghmare during office hours. The last date registration is 16 /08/2022. The course will be conducted **free of cost**. Examination will be conducted at the end of course and a **certificate** will be issued to the passed students.

Date:- 15/10/2022

Certificate Course in Solar Energy and it's applications

Assessment Procedure

- Question Paper of Total Marks – 20
- 4 Questions of 5 Marks each
- All questions are compulsory
- Minimum Marks for passing – 08

Sample Question Paper

Time- 30 minutes

Max. marks -20

- Q.1 Explain with neat diagram, I-V characteristics of Solar cell.
- Q.2 Write a short note on non-conventional energy sources.
- Q.3 How electrical energy is generated using solar panel?
- Q.4 Write a short note on solar cooker.

Certificate Course on :- Changes in Human Lifestyle

Course Evaluation: -

The evaluation of the course was based on the following criteria.

1) Course content and Delivery:

- * The topics were comprehensive and covered all aspects of the subject matter.
- * Lectures were delivered effectively, with a focus on interactive learning.

2) Examination:

- * The 25 marks exam was well structured and effectively tested the students knowledge.
- * The exam was conducted in a fair and transparent manner.

3) Certificate:

- * Certificate were awarded to students who passed the examination providing formal recognition of their efforts and knowledge gained.

YOGA CERTIFICATE COURSE 2022-2023

INTRODUCTION:-

Late Laxmibai Deshmukh Mahila College Parli-V dist. Beed, Colleges students from rural areas come for education. 21 June is world Yoga day. The last several for decades. Citizens of many countries have had a yoga list. Centers have been formed the rules are the purity of the body and mind of are limited to a stable and relaxed state. Pranayama is a method of regulating pranic energy through special breathing control. The practice of concentrating on the external object the current corona- 19 disease has plagued the world and modern diets, in today's life to keep away from the growing disease yoga is needed. This allows each game player to edit the game in your game with the games. Server yoga is also needed. We have also decided to start a yoga certificate course in our college considering.

DEPARTMENT OF ENGLISH

Certificate Course in Spoken English

Academic Year : 2022-23

Duration : 1 Month

Course Duration : 01.08.2022 to 31.08.2022

Course Coordinator : Dr. Ardhpure Purva (Head, Department of English)

Aim of the Course: This course caters specifically to the needs of undergraduate students, focusing on both foundational skills and advanced communication techniques relevant to academic and professional settings.

Course Duration & Structure:

- 4 weeks (2 sessions/week, 60 minutes each)
- Interactive online platform with video lectures, quizzes, and collaborative activities.
- Live sessions with experienced instructors for personalized feedback and practice opportunities.

Key Skill Development:

- **Confidence & Fluency:** Engaging activities and role-plays to overcome hesitation and develop smooth, natural speech.
- **Clear Pronunciation:** Practice with audio recordings and phonetic exercises to achieve accurate and articulate pronunciation.
- **Effective Grammar:** Focus on common errors and practical application through real-world scenarios.
- **Professional Vocabulary:** Build a robust vocabulary relevant to academic disciplines and future career aspirations.
- **Listening & Critical Thinking:** Hone active listening skills and engage in insightful discussions with classmates.
- **Public Speaking & Presentations:** Develop effective delivery techniques and overcome stage fright through mock presentations.
- **Teamwork & Group Discussions:** Collaborate effectively in team projects and express ideas confidently in group settings.

Weekly Deep Dives:

Week 1: Foundational Skills & Communication Basics

- Review of essential grammar and sentence structure
- Building vocabulary through word families and synonyms
- Icebreaker activities and introductory dialogues
- Practice with common greetings and introductions

Week 2: Advanced Communication & Confidence Building

- Expressing opinions and giving presentations
- Effective listening and summarizing key points
- Participating in group discussions and debates
- Overcoming presentation anxiety and developing stage presence

Week 3: Professional Communication Strategies

- Tailoring communication for specific audiences
- Writing professional emails and reports
- Delivering clear and concise presentations
- Participating in professional meetings and interviews

Week 4: Cultural Awareness & Action Planning

- Understanding cultural nuances in communication
- Navigating diverse workplace environments
- Developing an action plan for continuous improvement
- Setting personal goals and tracking progress

Resources & References:

- Interactive online platform with curated materials
- Podcasts and videos on relevant topics
- Recommended reading list of academic and professional publications
- Access to online dictionaries and grammar resources
- Live Q&A sessions with instructors for personalized guidance

Assessment & Certification:

- Active participation in online activities and live sessions
- Completion of weekly assignments and quizzes
- Final assessment combining a presentation and self-reflection report
- Upon successful completion, receive a certificate of spoken English proficiency.

Certificate Course in Fundamentals of Food Science and Nutrition

Welcome to Late Laxmibai Deshmukh Mahila Mahavidyalaya, where academic excellence meets a passion for Learning. Our Home Science department is committed to providing a comprehensive understanding of the subject.

About this course

This certificate course provides the concept of nutrition & function of food. The course is designed to give students a broad overview in the field Food science & processing, storage, spoilage, food composition, Quality of food. It is a practical oriented course. Students could study How to improve food quality and various cookery & preservation methods.

Key Features: Experienced Faculty - Learn from passionate and knowledgeable instructors. Hands-On Learning: Engage in practical sessions and fieldwork. Industry-Relevant Content: Gain insights into current challenges and solutions.

Course Starts:

- February - 03 February to 25 March, 2023
- March - 03 February to 25 March, 2023

Time: Friday & Saturday 3:30 pm to 5:30 PM

Last date of Enrollment 01 February 2023.

Late. Laxmibai Deshmukh Mahila Mahavidyalaya
Arts, Commerce & Science
Department of HOME SCIENCE Year 2022-23.
Course Name: Fundamentals of food science & nutrition**

Summary report, Aims, Objectives and Outcome

Summary Report :

This certificate course provide concept of nutrition & function of food The course is designed to give students a broad overview in the field Food science & processing , storage , spoilage ,food composition , Quality of food . It was practical oriented course .Students could study How to improve food quality various cookery & preservation methods . Certificates were distributed to the students who have successfully passed The examination on the occasion of national nutrition week.

Aims :

- 1 To impart scientific knowledge: Equip students with a comprehensive understanding of food science, including nutrition concepts, food composition, processing, storage & spoilage.
- 2 To enhance practical skills: Enable students to apply their knowledge practically by learning various cookery & food preservation methods to improve food quality.
- 3 To promote nutritional awareness: Empower students to plan & enhance the nutritional quality of diets across different age groups, fostering healthier lifestyles & dietary habits.

Objective :

- 1 Students can understand the scientific knowledge about food & Nutrition.
- 2 Students acquire the knowledge about nutritious food for their growth, development And food sources for daily diet.

Outcome:

1. Student can able to plan nutritious food for different age group .
2. Student can improve nutritious quality of food in daily diet.

Academic Year 2022-2023 (FEB -MARCH)

Certificate course in Fundamentals of food science & Nutrition

SYLLABUS

Unit I : Introduction to the study of food (6 hr)

Meaning ,factor affecting selection of food ,methods of improving nutritional

Quality of food- germination fermentation supplementation, fortification.

Unit II: Carbohydrate food : (8hr)

Cereal-structure and composition ,ways of using cereals-grain ,flour, cereal product

Selection of cereal, storage and care. Sugars types composition ,manufacturing

Properties, storage of sugar.

Unit III : Protein foods : (8hr)

Animal sources -milk and milk products-composition nutritive contribution processing technique-pasteurization, homogenization. Egg structure composition grading cookery methods of cooking egg dishes. Meat cookery changes selection & storage of meat and poultry Product .Vegetable sources-structure ,composition effect of methods of soaking .germination

Unit IV : Fats &Oil : (8hr)

Composition, properties, during storage Importance in cookery changes in fat on heating ,rancidity selection & care during storage .

Protective food – classification composition, & importance in diet effect of cooking on fruits

And vegetables selection & storage.

B.D. 3552/PsA

Late Laxmibai Deshmukh Mahila Mahavidyalaya Parli-v

Department of Mathematics
Certificate Course on Cryptology
Year 2022-23

General outcomes:

The concepts used in early substitution and translation ciphers.

- ❖ Symmetric key encryption systems and public key encryption systems.
- ❖ Mathematical background of cryptography.
- ❖ Stream ciphers. Pseudo-randomness and how to use it for encryption.
- ❖ Essential techniques for survival and materials used for survival.
- ❖ Block ciphers and some classic block-cipher constructions (DES, 3DES and AES).
- ❖ Public-key cryptography. Public key encryption systems: one based on RSA functions and the other based on the Diffie-Hellman protocol.

Objectives:

- ❖ The aim of a cryptology course in mathematics is to equip students with the theoretical knowledge and practical skills needed to understand, analyze, and develop cryptographic systems. This includes:
 - ❖ Learning the mathematical foundations like number theory and algebra.
 - ❖ Grasping key security principles like confidentiality and integrity.
 - ❖ Developing skills in cryptanalysis to identify and mitigate vulnerabilities.
 - ❖ Exploring real-world applications such as secure communication and digital signatures.
- ❖ Overall, the course aims to prepare students for careers in cyber security and data protection.

The Department has modern vision for teaching, learning and research. Students get extensive knowledge and a high degree of expertise in information and communication technology.

- **Mode of Delivery:** Offline
- **Instructor(s):** Dr. V. V. Deshpande

Evaluation Summary

Participant Demographics

- **Number of Participants:** 21
- **Participant Background:** students.

Evaluation Methodology

- **Evaluation Period:** 27/06/22 to 13/07/22
- **Tools Used:** Theory Based Exam

The field of cryptography gives us a technical language to define important real-world problems such as security, privacy and integrity, a mathematical toolkit to construct mechanisms such as encryption, digital signatures, zero-knowledge proofs, homomorphic encryption and secure multiparty computation, and a complexity-theoretic framework to prove security using reductions. Theory based exam was conducted in the last session of the course. 5 question were given in the question paper out of which 3 questions need to be solved by the students. Each question carry 10 marks for the answer.

The Principal,
Late. Laxmibai Deshmukh Mahila Mahavidyalaya,

Department of Commerce
Certificate Course on E-Commerce and online Marketing
Year 2022-23

Aims:

1. Understand the Fundamentals of E-commerce*:
 - Explore the different types of e-commerce models (B2B, B2C, C2C, C2B).
 - Analyze the advantages and challenges of e-commerce for businesses and consumers.

2. *Examine Online Marketing Strategies*:
 - Investigate various online marketing techniques such as SEO, SEM, social media marketing, email marketing, and content marketing.
 - Evaluate the effectiveness of different online marketing strategies in driving traffic and sales.

3. *Assess the Impact of Technology on E-commerce*:
 - Study the role of emerging technologies such as AI, blockchain, and big data in shaping the future of e-commerce.
 - Explore the impact of mobile technology on online shopping behaviors.

4. *Analyze Consumer Behavior in Online Shopping*:
 - Understand the factors that influence consumer decision-making in e-commerce.
 - Examine the role of personalization and customer experience in driving online sales.

5. *Explore Security and Ethical Issues in E-commerce*:
 - Identify common security threats in e-commerce and strategies to mitigate them.
 - Discuss ethical considerations in online marketing and e-commerce, including data privacy and consumer protection.

6. *Evaluate E-commerce Platforms and Tools*:
 - Compare different e-commerce platforms (e.g., Shopify, WooCommerce, Magento) and their features.
 - Assess the importance of integrating tools such as payment gateways, CRM systems, and analytics for effective e-commerce operations.

7. *Develop Practical Skills for E-commerce Success*:
 - Create and implement an e-commerce business plan.
 - Design effective online marketing campaigns to attract and retain customers.

Objectives:

Course Objectives:

- Equip students with the fundamental knowledge and skills for successful participation in the e-commerce landscape.
- Introduce key concepts, strategies, and tools used in building and managing online businesses.
- Foster critical thinking and problem-solving skills in the context of e-commerce operations.
- Encourage exploration of career opportunities in the rapidly growing e-commerce industry.
- The Department has modern vision for teaching, learning and research. Students get extensive knowledge and a high degree of expertise in information and communication technology.

Department of Commerce

Certificate Course on Understanding Swa. Savarkar's Nationalist Thoughts Revealed in His Historical Writings

Aims & Objectives for Course: Understanding Swa. Savarkar's Nationalist Thoughts Revealed in His Historical Writings

Aim:

The aim of the course "Understanding Swa. Savarkar's Nationalist Thoughts Revealed in His Historical Writings" is to provide participants with a comprehensive understanding of the nationalist ideology of Swa. Vinayak Damodar Savarkar as portrayed in his historical writings. The course aims to explore Savarkar's perspectives on nationalism, independence, social reform, and cultural revival and their relevance to contemporary society.

Objectives:

To Introduce Participants to Swa. Savarkar's Life and Works:

- Provide an overview of Savarkar's life, contributions, and major literary works.
- Familiarize participants with the historical context and influences that shaped Savarkar's nationalist ideology.

To Explore Savarkar's Concept of Nationalism:

- Examine Savarkar's definition and conception of nationalism as depicted in his writings.
- Analyze the role of patriotism, national identity, and solidarity in Savarkar's nationalist thought.

To Investigate Savarkar's Historical Perspectives:

- Explore Savarkar's interpretations of Indian history, culture, and civilization.
- Assess Savarkar's portrayal of key historical events, figures, and movements in his writings.

To Understand Savarkar's Vision for Social Reform and Cultural Revival:

- Examine Savarkar's vision for social reform, cultural rejuvenation, and national regeneration in India.
- Discuss Savarkar's perspectives on religion, caste, social hierarchy, and their implications for societal transformation.

To Evaluate the Relevance of Savarkar's Ideas in Contemporary Context:

- Assess the applicability and relevance of Savarkar's nationalist ideology to contemporary social, political, and cultural challenges.
- Encourage critical reflection on the enduring significance of Savarkar's ideas for contemporary India.
